

## It's happening this January 2024!

We plan to introduce Moodle, a new learning platform.

Moodle will help us breathe new life into LWCC's programs.

Not only will it help us to grow as an organization, it will enable us to provide you with an easier and more user-friendly learning experience.

### What do I need to know?

#### Moodle is flexible

There will be a large range of learning opportunities. As long as people want access to training and education, there will be courses available.

#### Everything under one roof

This will let you keep up to date on the latest programs (courses, trainings, workshops, and seminars). Receive notifications, learn and register for our programs through Moodle.

#### Complete access

No longer will you need to wait to get access to course materials. As long as you have an email address, you can access course learning materials anytime you want according to your schedule.

Overall, we believe Moodle will allow us to achieve our goals of holistically improving people's physical, mental, relational, and spiritual health.

Make sure to check back in for updates!

Got suggestions on how we can improve your learning experience?
