

It's happening this January 2024!

We're introducing Moodle, a new learning platform.

Moodle will help us to grow as an organization, breathing new life into LWCC's programs. It will enable us to provide you with an easier and more user-friendly learning experience.

We believe Moodle will allow us to achieve our goals of holistically improving people's physical, mental, relational, and spiritual health.

What do I need to know?

Moodle is flexible

There will be a large range of learning opportunities. As long as people want access to training and education, there will be courses available.

Everything under one roof

Keep up to date on the latest programs (courses, trainings, workshops, and seminars). Receive notifications, learn and register for our programs through Moodle.

Complete access

You won't need to wait to get access to course materials. As long as you have an email address, you can access course learning materials anytime you want according to your schedule.

Check out our Moodle site!
